BACKGROUND

ABOUT

I am an accomplished developer with a specialization in Elixir, dedicated to crafting robust web applications. With a track record of delivering excellence, I thrive on problem-solving and prioritize user experience, performance, scalability, and maintainability. Over my journey in the tech industry, I've led a team and worked on diverse projects, including a SaaS cashier system. My adaptability and hacker mindset enable me to tackle challenges creatively.

WORK EXPERIENCE

Lead Developer, Evoluflor

Sep, 2020 - Aug, 2023 ⌚ 2 years 10 months

A SaaS app cashier system designed specifically for florist

- Managed and led a development team, overseeing project tasks and deadlines.
- Established and nurtured a developer pipeline, ensuring the growth and readiness of new team members.
- Maintained and improved GraphQL API built with Phoenix Absinthe.
- Designed and developed a rich dashboard for shop owners in LiveView, providing comprehensive statistics and accounting functionality.
- Created an e-shop solution to expand the product's offerings.
- Led efforts to follow the official certification for the cashier system

● Founder, Tontontresors

Dec, 2022 - Present

Founded and developed TontonTrésors, a specialized database for Hermes Scarves collectors

- Conceptualized and initiated the TontonTrésors project, a comprehensive database dedicated to Hermes Scarves.
- Designed and developed the website from scratch, including database architecture and user interface.
- Continuously curate and update the database to provide collectors with accurate and valuable information.

Developer, Upintown

Mar, 2021 - Apr, 2021  1 month

Discover all the exhibitions in Paris and let yourself be inspired

- Adding new resources on a GraphQL Api build with Phoenix Abstinthe
- Implemented search functionality using PostGIS

Developer, PandaScore

Feb, 2017 - Sep, 2019  2 years 7 months

Odds and stats on esports games (league of legends, counter strike GO, dota2 ...)

- Successfully migrated infrastructure from Azure to Google Cloud
- Played a key role in the development and maintenance of various real-time services, utilizing Elixir and Node.js.
- Contributed to the creation of a platform providing odds and statistics for esports games, including League of Legends, Counter-Strike, and Dota 2
